During the last 11 years the chairman of Rochdale Round Table has suffered from the ability to walk distances, take part in social and sports activities. At the beginning of this year he was diagnosed with osteoarthritis of both the left and right hips. In July he had a major operation to have the right hip replaced. A comment made on his way to recovery “ I truly believe that anyone can achieve almost anything if they can first dream it, but then execute an action plan to make it real” stands out to him. As Roundtable is about putting something back into the community he has decided to do something that 2 months ago he would not even dreamt about. A 10K Walk. This was his ambition for this year and who knows what it will be next year.
